Profile

Dedicated and results-driven software engineer with over 2 years of hands-on experience in Software development. Skilled in creating end-to-end production-ready features in fast-paced startup environments, and eager to contribute to a dynamic team.

Professional Experience

Software Engineer, Shyam Steel, Kolkata 06/2022 – present

Retail CRM 11/2023-present

- Developed APIs for a mobile app, enabling efficient **expense tracking and management** for field users, with support for **over 2,000+ users**.
- Integrated **third-party Digio API** to verify user PAN and shop GST Certificate, resulting in a remarkable **12% decrease in fake registrations** and enhancing data accuracy.
- Incorporated APIs and Setup multiple reusable UI screens for requisition management, loading program creation, vehicle details submission, KYC verification via Digio API, **approval/rejection at different levels**, SKU submission, plant selection, and contract creation, **enhancing process efficiency by 25% and user satisfaction by 15%**.
- Implemented mobile APIs for user login and OTP verification, enabling access to sales, dispatch, orders, payments, and lead statistics for the financial year, **supporting over 1,000 plus users**.

Buildistan, a B2B e-commerce application 01/2023-11/2023

- Architected and integrated **user-based role-module authentication and authorization** for the web app.
- Tailored **JWT-based authentication** for user login, registration, and password management; developed APIs for product catalog, search, filters, cart management, and user profile management and **integrated Payment Gateway**.

Ghareka 06/2022-01/2023

- Constructed **REST APIs** for the lead module, including lead creation, profile management, KYC submission, authentication, authorization, and area access module.
- Configured **Custom API solution** to convert leads into accounts after KYC submission, **processing over 100+ leads into accounts in FY 2022-23**.
